

— PARTNER PROPOSAL

Knock

Knock on the right door.

A founding partnership for <Club name>
Placement committee and career clubs

— THE PROBLEM

Off campus, a search becomes
a pile of applications nobody
reads.

- 01 Lateral and off-campus roles run through job portals.
- 02 Students send hundreds of applications and hear back from a few.
- 03 Yet most hiring decisions still start with a person, not a form.

— WHAT ALREADY WORKS

People hire people. *Warm conversations* open doors that cold applications cannot.

THE COLD APPLICATION

- One of hundreds in an applicant tracker
- Judged on keywords before a human sees it
- No context, no one vouching for you

THE WARM CONVERSATION

- A real person who knows your name
- Context on the team, the role and the timing
- Often leads to a referral or a direct interview

Knock exists to start more of the second kind, for every student who asks.

— WHAT KNOCK DOES

We turn a target list into *real conversations*, in four steps.

- You approve every message. It is sent from your own LinkedIn.

Every target company has *four kinds of doors*.
We research each one.

Hiring managers

The person who owns the role and the decision.

Team members

People doing the job today, who can describe it and refer.

Alumni

Graduates of your school who remember sitting where you sit.

Senior introducers

Leaders whose one line of introduction carries weight.

— AN EXAMPLE FIRST MESSAGE

A first message should read like *one person writing to another*.

R

To Rahul, Product at Zepto · via the student's own LinkedIn

Hey Rahul, saw you moved from Flipkart into product at Zepto. I'm making a similar jump from brand management. Curious, what was the biggest adjustment for you?

Illustrative example. Written for one person, approved by the student before sending.

SPECIFIC

It names his actual move. He knows it was written for him.

SHARED

A genuine common thread: the same kind of career switch.

EASY TO ANSWER

One honest question. No ask for a job, no attachment, no pressure.

— WHY IT IS NOT SPAM

$$\frac{\text{Interviews secured}}{\text{People contacted}} \times 100$$

Per student

Each student sees their own number, plus every reply and referral along the way.

In aggregate

The club sees the pilot as a whole, anonymised, ready to share with the batch.

No promises yet

We have no results to quote. The pilot is how we, and you, find out.

Three weeks from *kickoff to results*.

Five students. Three weeks. One results summary your club can share.

— NEXT STEP
