Partner proposal for <Club name>

Off-campus and lateral searches have become a numbers game nobody wins

Illustrative

Portals reward volume

Hundreds of applications go out. Few get a reply.

Nobody owns the queue

A resume waits behind filters and a busy inbox.

Fit gets lost

A strong profile reads like every other form.

People hire people.

Warm conversations open doors that cold applications rarely do

Cold application

WHO SEES IT

A filter and a queue

HOW IT STARTS

A form and a resume

WHERE IT LEADS

Silence, more often than not

Warm conversation

WHO SEES IT

A person with context

HOW IT STARTS

A genuine reason to talk

WHERE IT LEADS

Advice, a referral, an interview

Your seniors already know this. The hard part is doing it well, at scale, without becoming spam.

Knock turns a target list into real conversations, in four steps

 **You approve every message.** It is sent from your own LinkedIn, in your name.

We look for the people who can actually open a door

*Each person is researched
before we write a word.*

○ Hiring managers

The person who owns the role and the decision.

○ Team members

Future peers who know what the work really needs.

○ Alumni

People from the same campus who remember being in your seat.

○ Senior introducers

Leaders who can point you to the right person.

A good first message is short, specific and easy to answer

To: Rahul

Product, Zepto | previously Flipkart

Hey Rahul, saw you moved from Flipkart into product at Zepto. I'm making a similar jump from brand management. Curious, what was the biggest adjustment for you?

Example first message

1

It is specific

It names his real move, Flipkart to Zepto. It could not be sent to anyone else.

2

It shares a reason

The sender is making a similar jump, so the question is honest.

3

It asks nothing yet

One curious question that takes a minute to answer. The ask comes later.

Built to protect your batch's inbox and reputation

60

hand-picked people per
week, per student

*Not a mass blast. A short list,
chosen with care.*

Every message is personal

Written for one person, based on something genuinely shared.

Sent from the student's own account

Approved by them first. Nothing goes out in their name without a yes.

Well under LinkedIn's limits

Paced like a thoughtful person, not a tool.

Conversation first, the ask later

We earn the referral. We never open with it.

Founding-member pricing, INR. Every <Club name> member gets the founding price.

The partnership is simple: real value for your batch, two small asks

What <Club name> gets

- **Founding price**
for every member and alum
- **A free pilot**
for 5 students the club chooses
- **A results summary**
the club can share with the batch
- **A co-hosted session**
on outbound job search

What Knock asks

- 1 **One announcement**
to the batch, in the club's words
- 2 **One feedback call**
after the pilot, 30 minutes

We measure one honest number: interviews per 100 people contacted

Interviews

booked from Knock
conversations

People contacted

hand-picked and messaged

× 100

Per student

Each pilot student gets a private report: who was contacted, who replied, which conversations became referrals or interviews.

In aggregate

The club gets an anonymised summary across the pilot group, ready to share with the batch.

No promised numbers. The pilot tells us, and you see the same data we do.

The pilot takes three weeks from kickoff to results
