OFF-CAMPUS AND LATERAL SEARCH TODAY

Job portals turn a career move into a numbers game that *few people win.*

People hire *people.* Behind every opening is a hiring manager and a team. A portal never introduces your students to them.

YOUR SENIORS ALREADY KNOW THIS

Referrals and warm conversations open doors that *cold applications rarely do.*

	Cold application	Warm conversation
WHO READS IT	A filter, or a recruiter with a long queue	A person who knows the team and the role
WHAT IT SAYS	A CV that looks like many others	Why this person, for this team, right now
WHAT COMES NEXT	Waiting, usually in silence	Advice, an introduction, or a referral

The hard part is not knowing this. It is doing it well, for the right people, every week.

A PRIVATE CAREER CONCIERGE, IN FOUR STEPS

We do the finding, research and writing. *The student stays in charge.*

Pick targets

Together we choose the companies and roles worth the effort.

WITH THE STUDENT

Find the right people

Hiring managers, team members, alumni and seniors who can introduce.

KNOCK

Write a first message

Short and personal, built on something genuinely shared.

KNOCK

Guide every reply

From first reply to a referral or an interview, step by step.

KNOCK, WITH THE STUDENT

The student approves every message. Each one is sent from their own LinkedIn, in their own name.

WHAT A KNOCK MESSAGE SOUNDS LIKE

One honest reason to talk. *No ask on day one.*

**To: Rahul**

Product, Zepto. Previously Flipkart.

Hey Rahul, saw you moved from Flipkart into product at Zepto¹. I'm making a similar jump from brand management². Curious, what was the biggest adjustment for you?³

Illustrative example Sent from the student's own account

- 1** Specific to him
It names a real move he made. It could not be pasted to anyone else.
- 2** A genuine shared reason
The student is making the same kind of switch. That is why they are writing.
- 3** Easy to answer
One question about his experience. No CV, no request for a job, yet.

BUILT TO PROTECT YOUR BATCH'S NAME

Fewer, better conversations. *Never volume.*

60

hand-picked people per week

Each one chosen and researched by a person.
Not scraped lists, not bulk sends.

01 Every message is personal

Written for one recipient, around something real they share.

02 Sent from the student's own account

Approved by them first. Nothing goes out in their name without a yes.

03 Well under LinkedIn's limits

Paced like a thoughtful person networking, not a campaign.

04 Conversation first, ask later

Referrals come after rapport, when the other person is ready to help.

WHERE CAMPUS PLACEMENT DOES NOT REACH

Useful for the students and alumni *searching on their own.*

STUDENTS

Off-campus and off-cycle searches

For roles and companies that do not come to campus, or timing that does not fit the process.

Typical case: the target company never visits campus.

ALUMNI

Lateral moves after a few years

Busy professionals with no time to research people and write thoughtful notes every week.

Typical case: a clear next move, but no hours to network.

BOTH

Function and sector switches

Brand to product, consulting to strategy, banking to startups. Where a CV alone tells the wrong story.

Typical case: the CV says one thing, the story says another.
