

- Knock

Knock on the *right door.*

A partner proposal for <Club name>

Personal outreach for your students and alumni, at a founding-member price.

THE PROBLEM

Off-campus and lateral searches run through portals. Portals rarely reply.

-
- 01 Find a role on a job portal
 - 02 Upload the same CV, again
 - 03 Repeat a few hundred times
 - 04 *Wait. Mostly, hear nothing.*
-

People hire
people.

Behind every opening is a manager and a team. A CV in a queue rarely reaches them. A good conversation often does.

WHAT ALREADY WORKS

Referrals and warm conversations open doors that cold applications cannot.

	Cold application	Warm conversation
WHO SEES IT	A screening system, then maybe a recruiter	A person on the team you want to join
CONTEXT	A CV, with no story behind it	A shared background and a reason to talk
WHERE IT LEADS	Usually silence	Advice, a referral, sometimes an interview

Your seniors already know this. Most of them got their best leads through people, not portals.

WHAT KNOCK DOES

We do the hard part of a warm search, in four steps.

1 THE STUDENT Picks target companies and roles A short brief on where they want to go next.	2 KNOCK Finds the right people Hiring managers, team members, alumni and senior people who can introduce.	3 KNOCK Writes a personal first message Each one built on something genuinely shared.	4 KNOCK, WITH THE STUDENT Guides every reply Until it becomes a referral or an interview.
---	---	---	---

- The student approves every message. Each one is sent from their own LinkedIn.

AN EXAMPLE FIRST MESSAGE

Short, specific, and easy to answer.

To: Rahul

Product, Zepto · previously Flipkart

Hey Rahul, saw you moved from Flipkart into product at Zepto. I'm making a similar jump from brand management. Curious, what was the biggest adjustment for you?

Sent from the student's own LinkedIn, after their approval

1 It shows real attention

It names his actual move, not a generic compliment.

2 It gives a genuine reason

A similar career jump makes the message relevant to him.

3 It asks for nothing big

One easy question starts a conversation. The ask comes later.

WHY IT IS NOT SPAM

Few people, chosen carefully,
and written to one at a time.

60

hand-picked people per student,
per week.

Chosen for relevance to that student's
goals. Never a mass list.

Every message is personal	Written for one reader, around something real they share.
Sent from their own account	The student's name and profile. No bots, no shared inboxes.
Well under LinkedIn's limits	A pace that protects the student's account and reputation.
Conversation first	We earn the reply before anyone asks for a referral.

CLUB MEMBERS

 Founding-member pricing for everyone in

<Club name>

, students and alumni.

THE PARTNERSHIP

Your club gets a lot. We ask for very little.

WHAT <CLUB NAME> GETS

- 1 Founding price for members
For students and alumni of the club.
- 2 A free pilot for 5 students
Chosen by the club. No cost to them.
- 3 A results summary to share
What happened in the pilot, written up for your batch.
- 4 A co-hosted session
On how to run an outbound job search well.

WHAT KNOCK ASKS FOR

- 1 One announcement
A single note to the batch, in your words.
 - 2 A feedback call
Thirty minutes after the pilot ends.
- That is all. Your batch's inbox stays yours.*

HOW WE MEASURE SUCCESS

One honest number: interviews per 100 people contacted.

Interviews

People contacted

× 100

Per student

Each pilot student sees their own number, and what drove it.

In aggregate

The club sees the combined result across all five.

We have no results to show yet, so we make no promises. The pilot is how we find out, together, and we will report what actually happens.

PILOT TIMELINE

Three weeks from kickoff to a shared review.

WHAT THIS MEANS FOR YOUR BATCH

Your students stay in control, and so does your club's name.

Nothing goes out unapproved

Students review and approve every message before it is sent.

Their name, their voice

Sent from their own LinkedIn, in a tone that sounds like them.

One announcement, no more

We do not message your batch directly. Students opt in.

Judge it on the pilot

Five students, three weeks, then decide with real evidence.

NEXT STEP

Pick 5 students
for the *free pilot*.
